Hello Ms. Green,

Mr. Paul White with the City of Dallas forwarded questions you have regarding the Lane Plating Works Superfund Site Community Advisory Group. Provided below are responses to your questions:

1. When is the first CAG meeting?

The first CAG community meeting is tentatively scheduled for late October, 2019.

2. Who are the local residents appointed to the CAG?

The list of the CAG members will be provided once all members have been confirmed. City Councilpersons from Districts 4, 7 and 9 provided two names from each district. CAG membership was also offered to representatives from state, local and non-government agencies.

3. Are there additional CAG spots open for (non-council appointed) residents?

CAG's are open to elect and remove members during the entirety of their relationship to the site.

4. Are the meetings going to be open to the public?

As CAG's are self-regulating, they have the option to meet privately or in a public setting.

5. Is there a new EPA liaison coordinating the CAG?

The first few CAG meetings will be coordinated by our contracted facilitator, Mr. Michael Lythcott. EPA will also assist with these meetings.

6. When are you going to reveal sampling results?

EPA plans to release the sampling results in October, 2019, and discuss them at the planned CAG community meeting

7. Has DISD been notified about Lane Plating?

Yes. EPA has coordinated with the Dallas Independent School District regarding site access agreements for our sampling plan.

Please feel free to contact me directly if you have any additional questions.

Thanks,

-Ed-
